Utah Medical Education Council 2015 Mental Health Workforce Survey

Dear «Prefix» «LAST NAME»

The Utah Medical Education Council (www.utahmec.org) was created in 1997 with the mission to conduct healthcare workforce research. The UMEC's advises on Utah's medical workforce needs, influences graduate medical education financing policies, and works with state legislators, universities, and numerous healthcare organizations to ensure that Utah's healthcare workforce is sufficient to serve Utah's communities.

The UMEC, in conjunction with the Utah Department of Health, Utah Division of Occupational and Professional Licensing, the University of Utah, Utah State University, Brigham Young University, as well as the National Association of Social Workers-UT, Utah Association for Marriage and Family Therapy, the Utah Mental Health Counselors Association, and the Utah Psychological Association would like to invite you to participate in the first comprehensive survey of the mental health workforce in Utah. Your participation in this survey is crucial for determining the active mental health workforce makeup and distribution throughout the state. This information is critical for schools of mental health, the Utah legislature, and countless mental health organizations to prepare for current and future workforce needs. We are committed to maintaining your privacy. Only de-identified, aggregate data will be published.

For any questions regarding this survey please contact the UMEC at 801-526-4567 or by email at jennac@utah.gov. Please return the completed survey to the UMEC within 30 days in the enclosed postage paid envelope.
