

AGENCY FOR HEALTHCARE RESEARCH AND QUALITY

Physician and Physician Practice Research Database (3P-RD)

Herbert S. Wong, Ph.D.

Zeynal Karaca, Ph.D.

Agency for Healthcare Research and Quality

AcademyHealth – HWTAC Webinar ♦ February 8, 2023

Agenda

- Introductions
- Motivation
- Overview
 - ▶ Plan, Acquire, Process, Build, Test, Share
- Descriptive Statistics
- How to Obtain 3P-RD?
- Questions & Answers

AHRQ Mission

- “... to produce evidence to make healthcare safer, higher quality, more accessible, equitable, and affordable, and to work within the U.S. Department of Health and Human Services and with other partners to make sure that the evidence is understood and used...”
- Fund and conduct healthcare research
- Database Development and Dissemination
 - ▶ Long history
 - ▶ Medical Expenditure Panel Survey (MEPS), Healthcare Cost and Utilization Project (HCUP)

Motivation

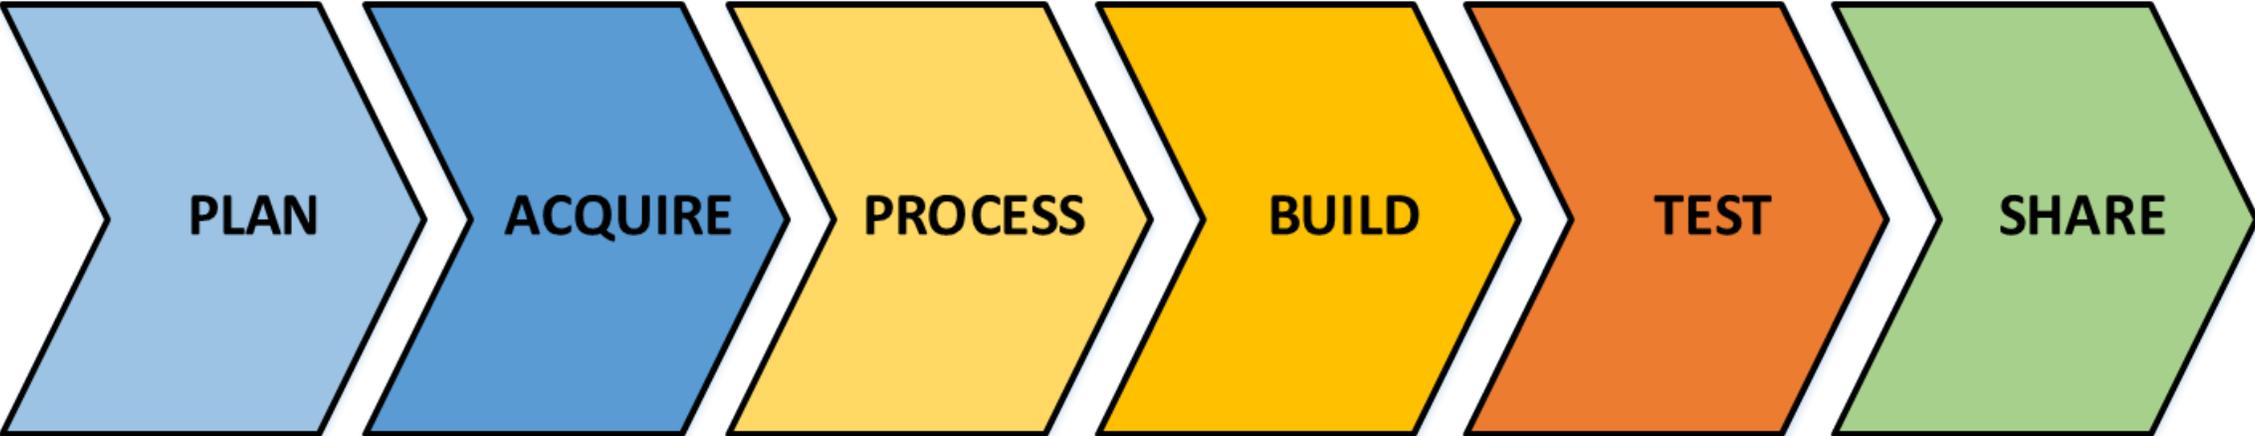

- March 2020: COVID-19 National Emergency
- The Coronavirus Aid, Relief, and Economic Security Act (CARES Act) signed into law on March 27, 2020.
 - ▶ Federal response to economic consequences of COVID-19
 - ▶ Growing recognition of health care disparities issue
- How best to implement components of the CARES Act?
 - ▶ Lack of data on medical professionals and organizations to make informed decisions.
- AHRQ Response -- Physician and Physician Practice Database (3P-RD)

What is 3P-RD?

- Individual state-level databases
 - ▶ Census of physicians and physician practices
 - ▶ Characteristics useful for health care analysis
 - ▶ Data Year 2019-2020
- Prime Contractor – NORC
- States

AR	MA	NY
AZ	MD	TX
CA	MN	WA
CO	MO	
FL	MT	

Overview

- ENVIRONMENTAL SCAN
- DATABASE DESIGN & DATA DEVELOPMENT PLANS
- PROJECT ADVISOR DISCUSSIONS
- DATA VENDOR OUTREACH

- DATA REQUEST APPLICATIONS
- DATA USE AGREEMENTS/MEMORANDUM OF UNDERSTANDINGS
- DATA PURCHASING COSTS
- DATA IMPORTS & STORAGE

- DATA CLEANING & VALIDATION
- DATA HARMONIZATION

- CONSTRUCTS & MEASURES DEFINING
- MATCHING/ RECORD LINKAGE
- DATA AGGREGATIONS

- DATA QUALITY CHECKS & BENCHMARKING
- ANALYSIS OF OUTLIERS
- CONFIDENTIALITY ASSESSMENT

- RESTRICTED & PUBLIC USE FILES
- DOCUMENTATION
- FEASIBILITY REPORT

Planning Stage: Evaluate Data

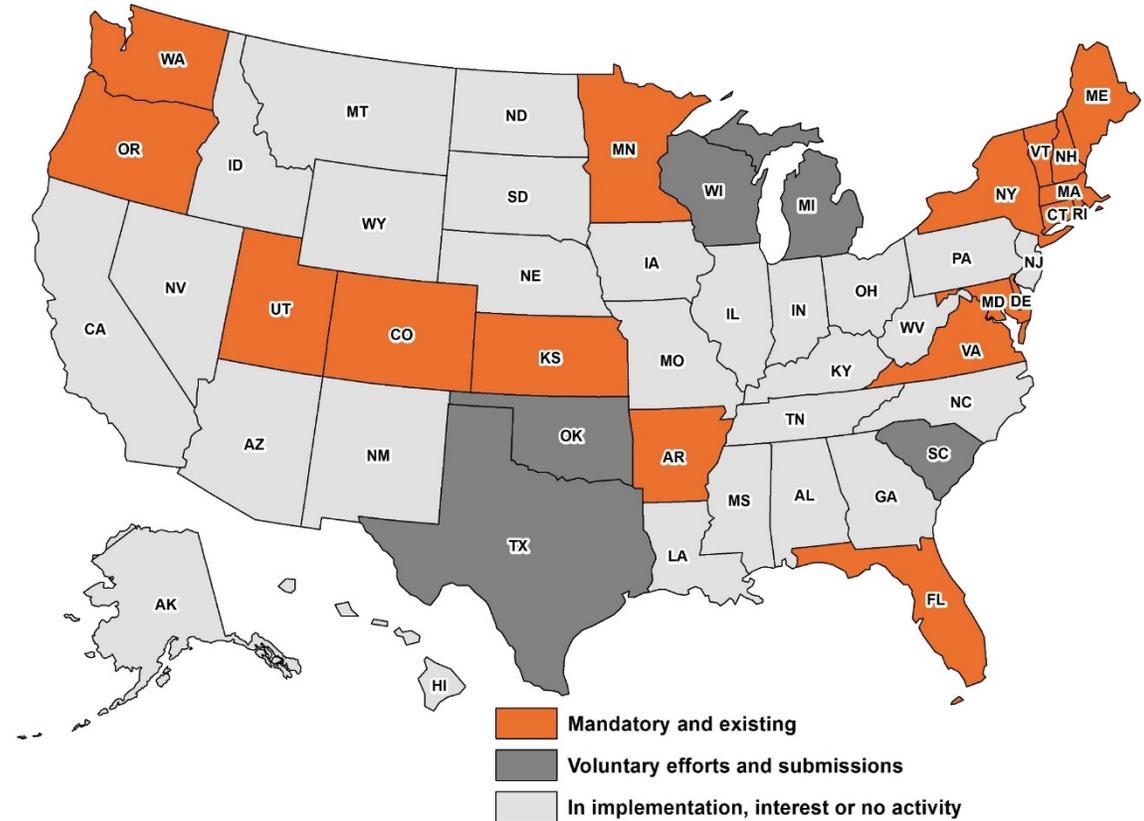

- Data Sources Common to States
 - ▶ Three (3) physician datasets (NPPES, FSMB, AMA Masterfile)
 - ▶ Four (4) physician practice datasets (MD-PPAS, PECOS, HCRIS, IQVIA OneKey)
- Data Sources Unique to States
 - ▶ Claims Databases (APCD and other claims sources)
 - ▶ State Medical Boards (SMB)
- Nine (9) other data sources considered
 - ▶ Association of American Medical Colleges
 - ▶ AHRQ's Compendium of U.S. Health Systems

Data Acquisition Stage

- Obtained SMB data for 21 states
- Conducted outreach to 7 states for APCD data
- Obtained APCD data from four (4) states
 - ▶ NPPES, PECOS, Compendium

States with APCDs Considered for the 3P-RD

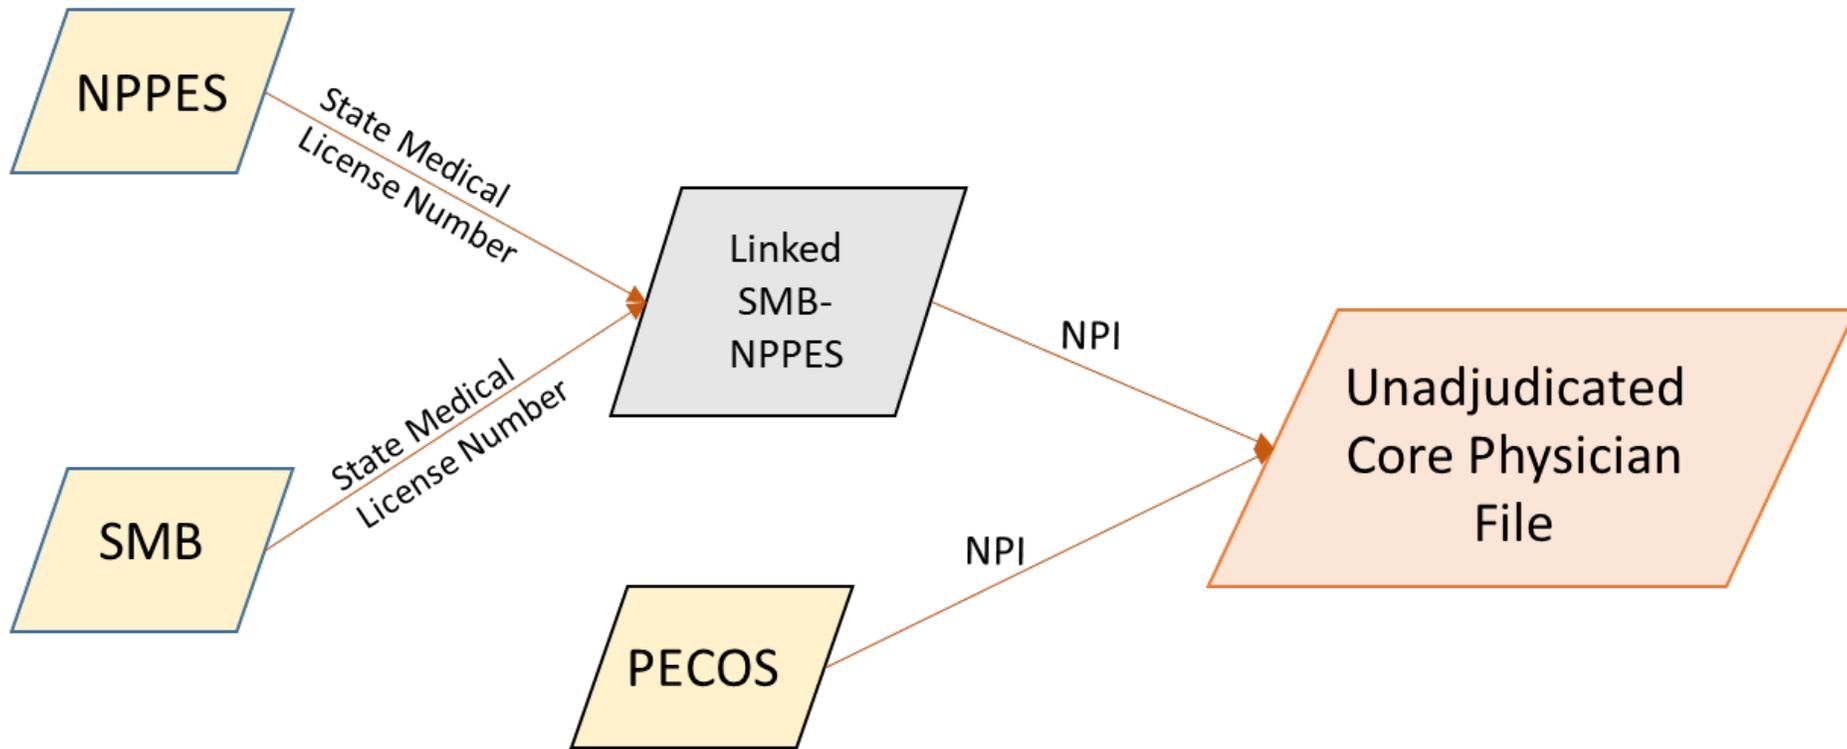

Process Stage

- Data Cleaning and Validation
 - ▶ Name, date, and full address clean-up
- Data Assessment and Harmonization
 - ▶ Specialty harmonization
 - ▶ Provider adjudication
- Linking files to create the Core Physician File
 - ▶ Three linking variants created to link SMB and NPPES
 - ▶ Match status evaluated on first and last name using Jaro-Winkler

Process Stage

Core Physician File

Process Stage

- Physician characteristics in the Core Physician file are dependent on the SMB data
 - ▶ Global 3P-RD Provider ID
 - ▶ License status: AR and MN only contain information for physicians with active licenses
 - ▶ License dates
 - ▶ Physician name and sex
 - ▶ Military affiliation: CA, FL, TX, WA
 - ▶ Board certifications: MA, MD, MN, MT
 - ▶ Medical school location: AZ, CA, FL, MA, MN, NY, TX
 - ▶ Harmonized specialty information

Build Stage

- Finalizing the 13 3P-RD States
 - ▶ Name, date, and full address clean-up
- Develop Physician characteristics from claims data
- Identify Physician Practice sites
 - ▶ TIN-ORG NPI-Servicing Zip Code
 - ▶ Not all APCD had TIN
- Develop Physician Practice characteristics from claims data

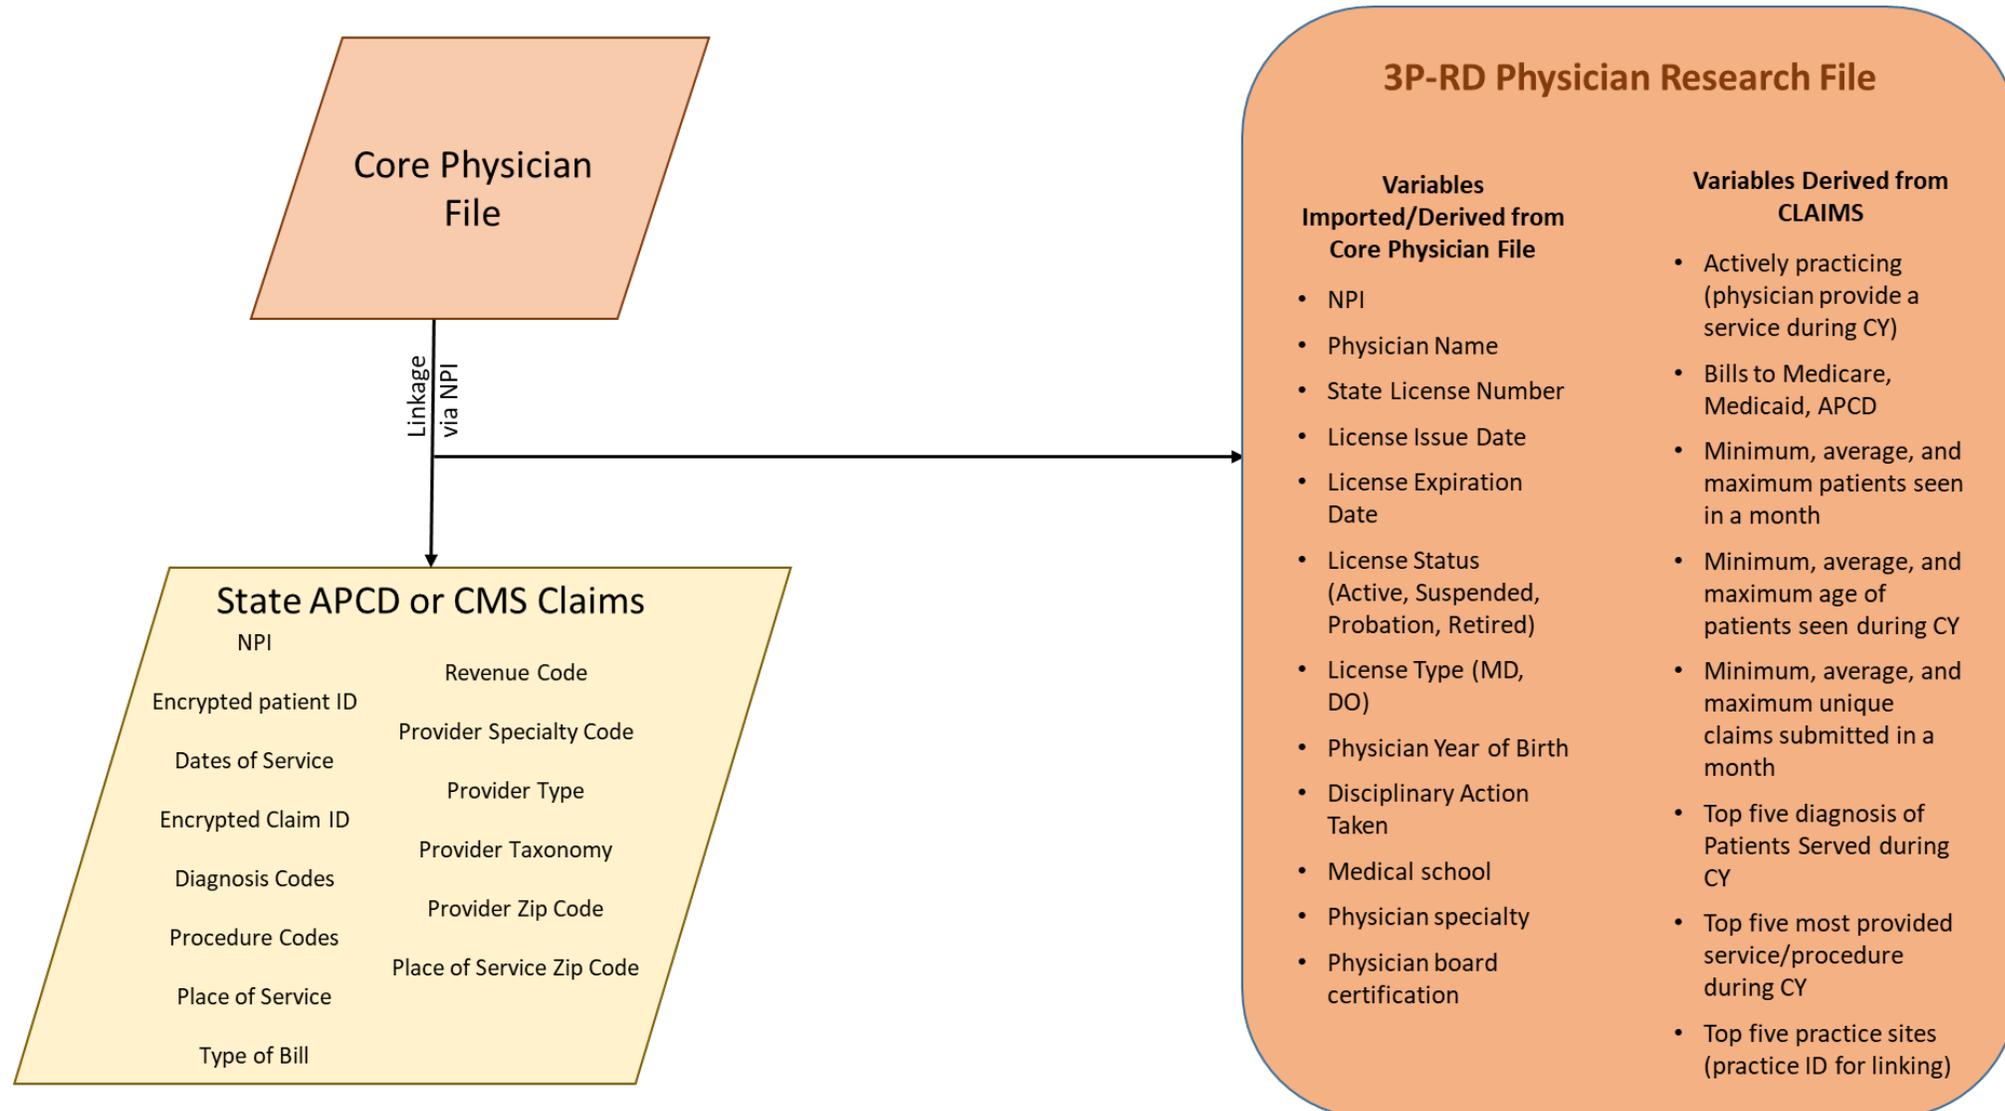

Build Stage: Final 13 States

- Four APCD states
 - ▶ Arkansas, Colorado, Maryland, Washington
- States with APCD programs or developing programs
 - ▶ California, Florida, Massachusetts, Minnesota, New York, Texas
- States for geographical representativeness
 - ▶ Arizona (southwest), Missouri (borders AR), Montana (frontier)

Build Stage: Claims Variables

- All variables standardized across all states regardless of claims data source
- All states include
 - ▶ CMS Medicare FFS data
 - ▶ Medicaid data; data sources vary
- Only states with APCD data include
 - ▶ Medicare Advantage data
 - ▶ Commercial data

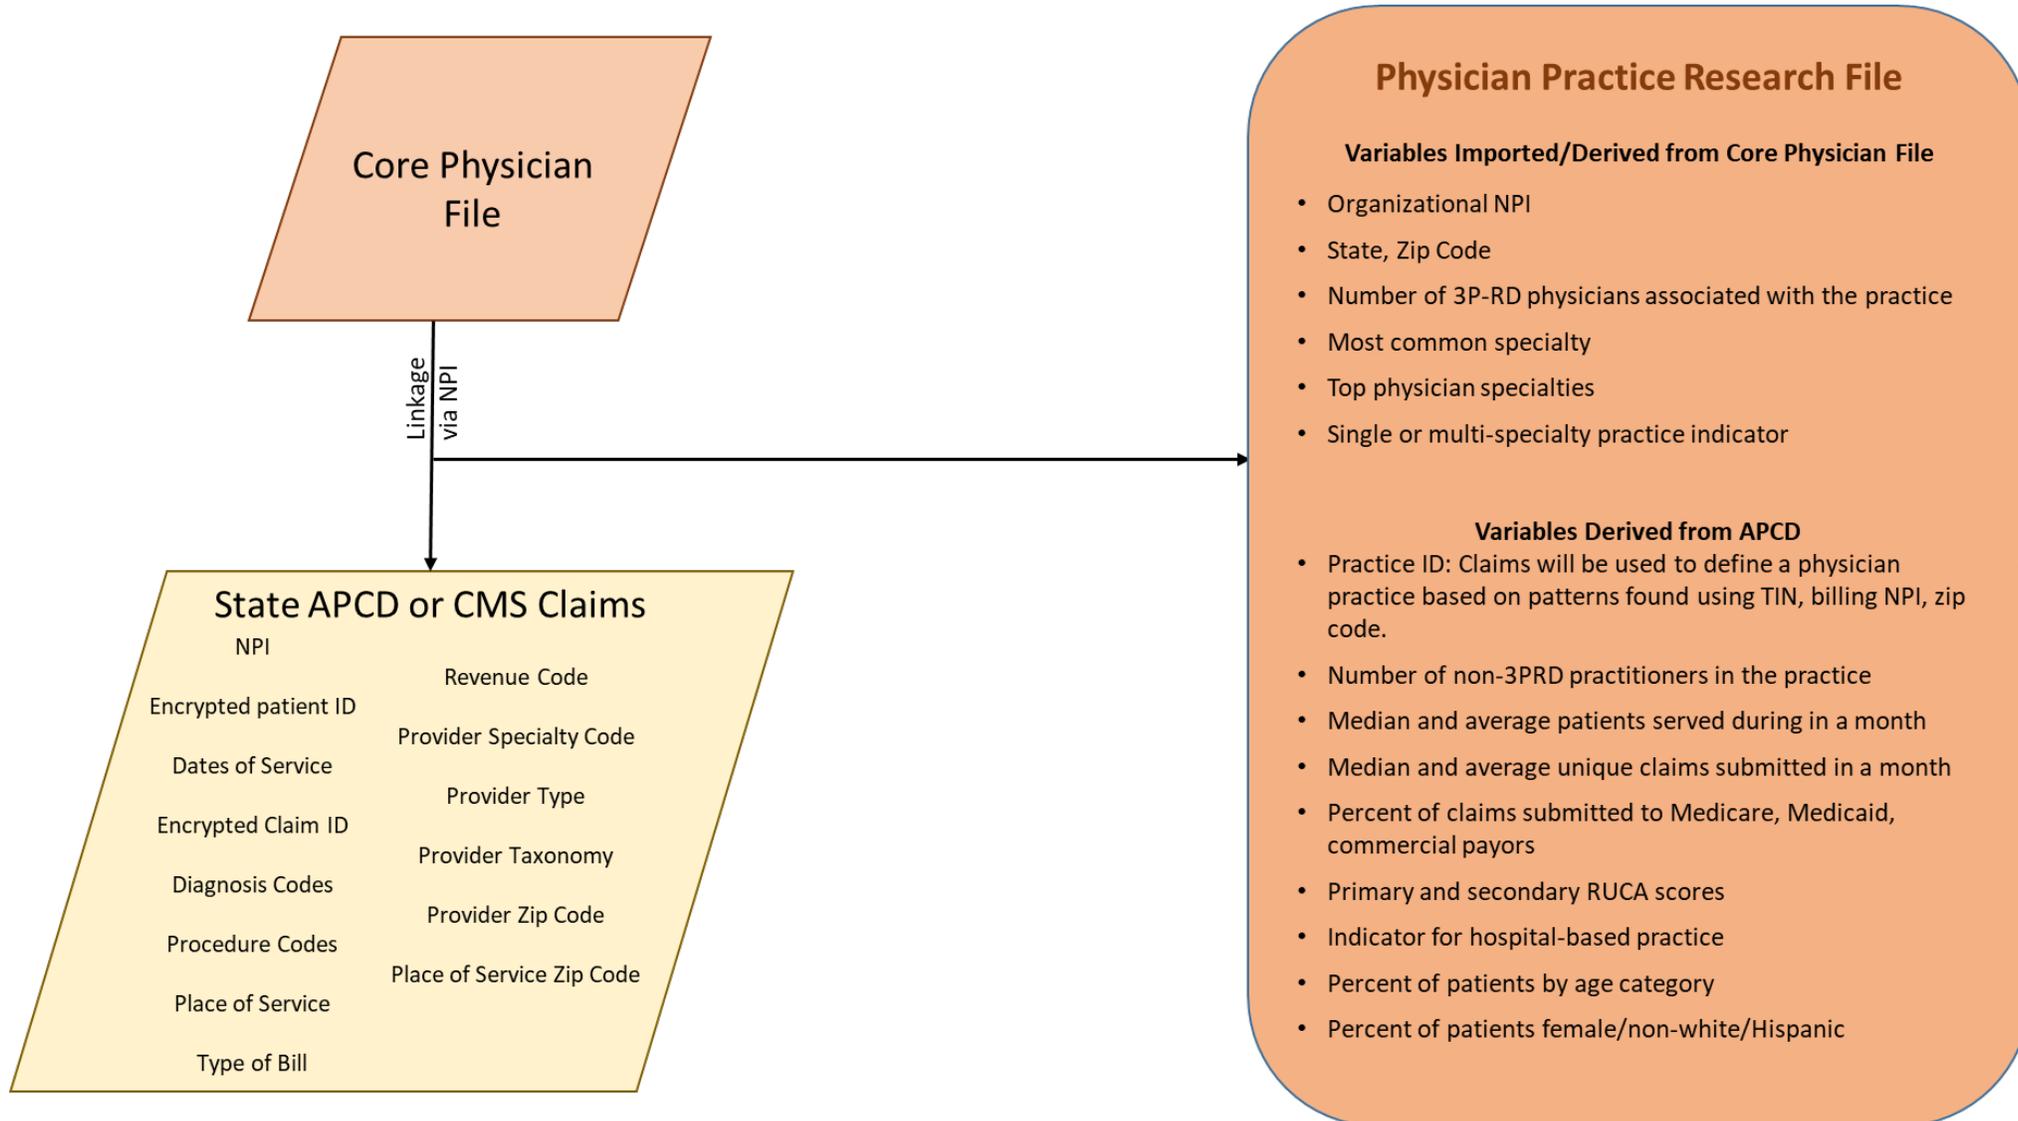

Build Stage: Physician Variables

Build Stage: Physician Variables

- NPI
- Actively practicing flag
- Types of insurance billed: Medicare, Medicaid, Commercial
- Patient panel age variables
- Claims per month (total and by payor)
- Patients per month (total and by payor)
- Claims per patient per month (total and by payor)
- Percentage of claims by payor
- Top procedures performed (code and category)
- Top diagnoses observed (code and category)

Build Stage: Physician Practice Variables

Build Stage: Physician Practice Variables

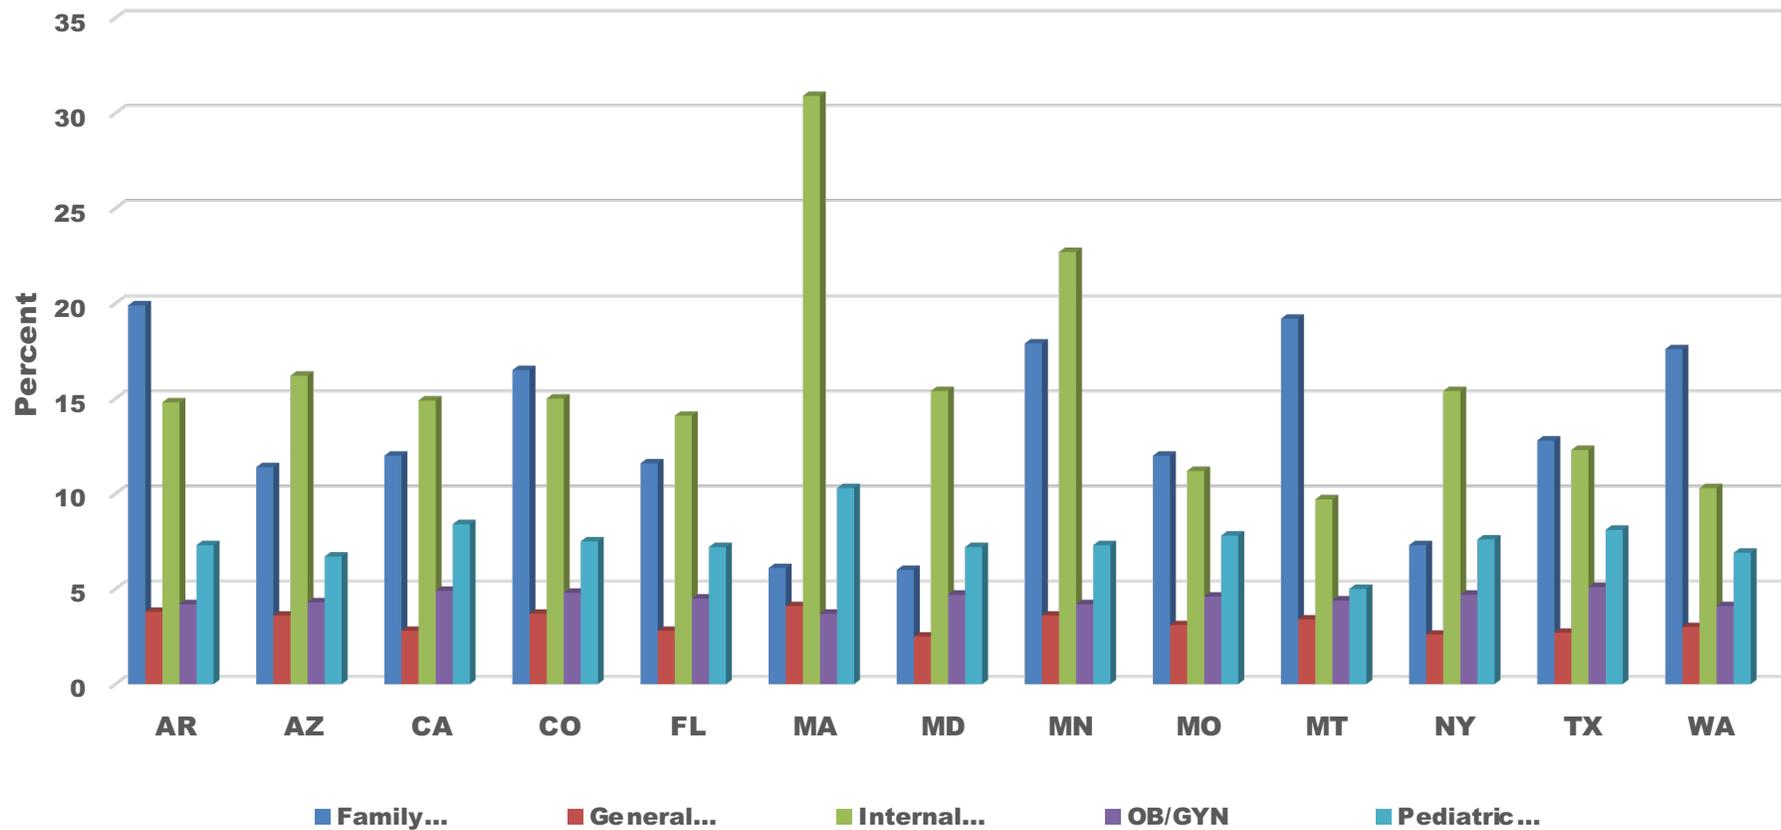

- Organizational NPI
- Number of 3P-RD physicians associated with practice
- Number of other providers associated with practice
- Total number of providers associated with practice
- Demographics of patient panel (% of patients in age groups, % female, % non-White, % Hispanic)
- Claims and patients per month
- Most common specialty
- PCP, Medical, Surgical focus for practice
- Hospitalist and Hospital based indicators
- Zip code of practice

3P-RD Key Characteristics

- Physician and Physician Practice files are linkable
- Global 3P-RD Provider ID will allow the identification of providers across state lines
- Can be used to answer key policy questions
 - ▶ Number of physicians have a license
 - ▶ Number of physicians with an active license actively provide care
 - ▶ Number of physicians with licenses that recently expired and can be recalled if necessary

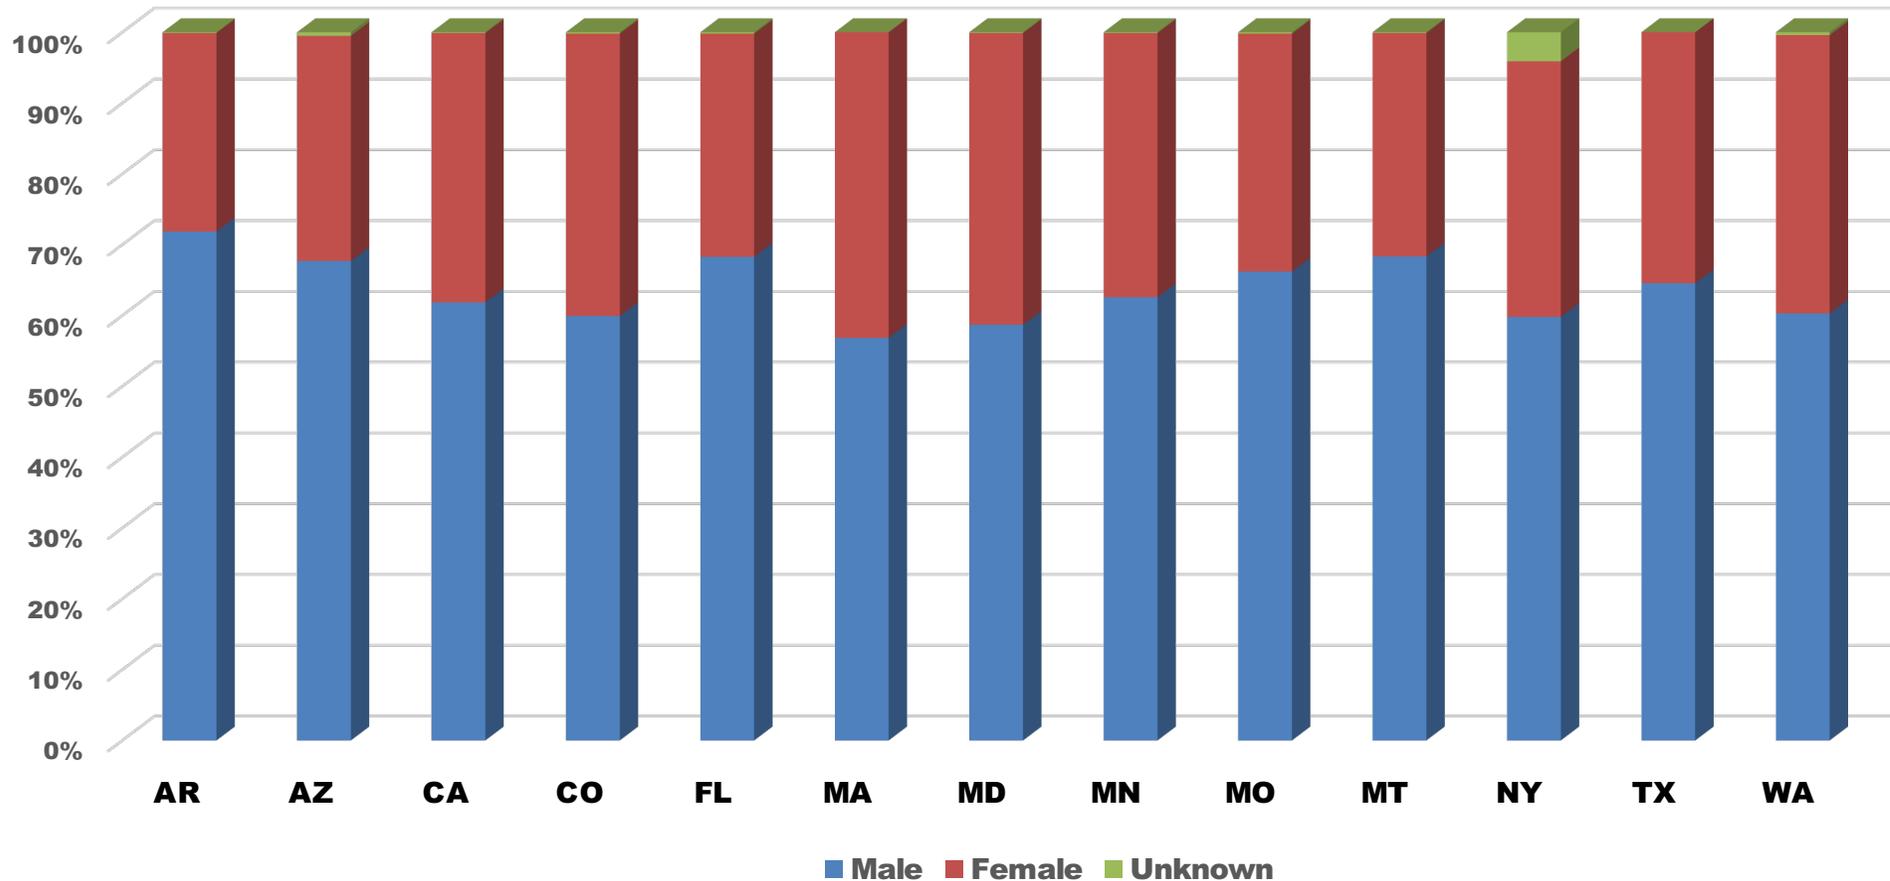

Selected Statistics of Physician Files

Distribution by medical specialties

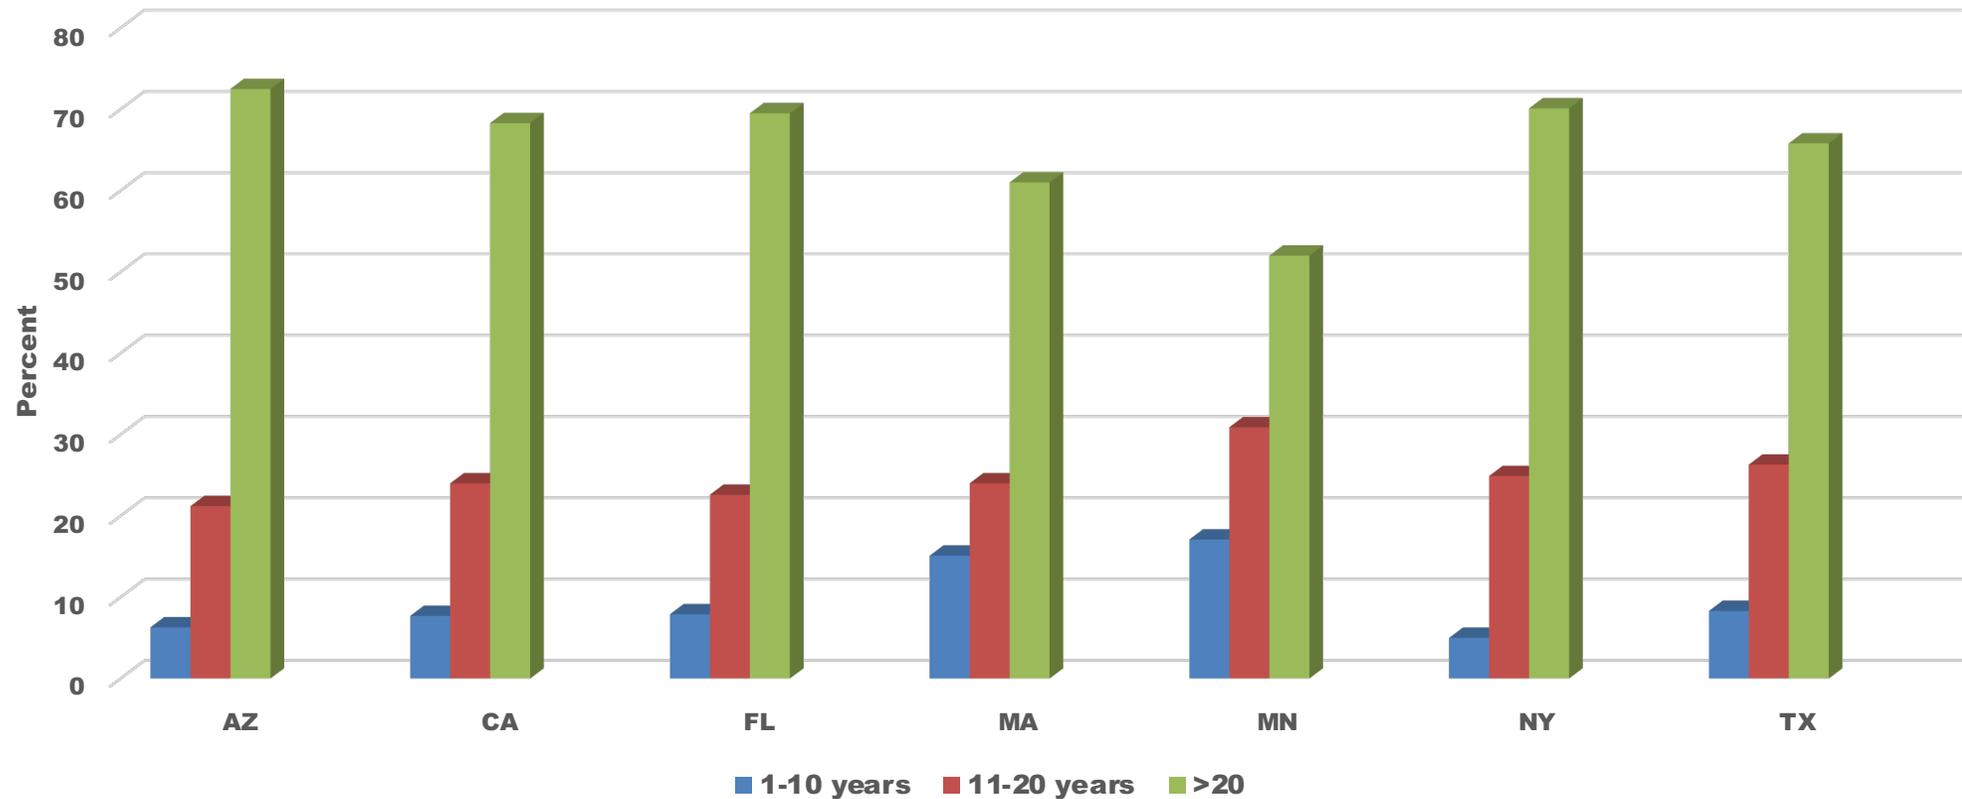

Selected Statistics of Physician Files

Distribution by gender

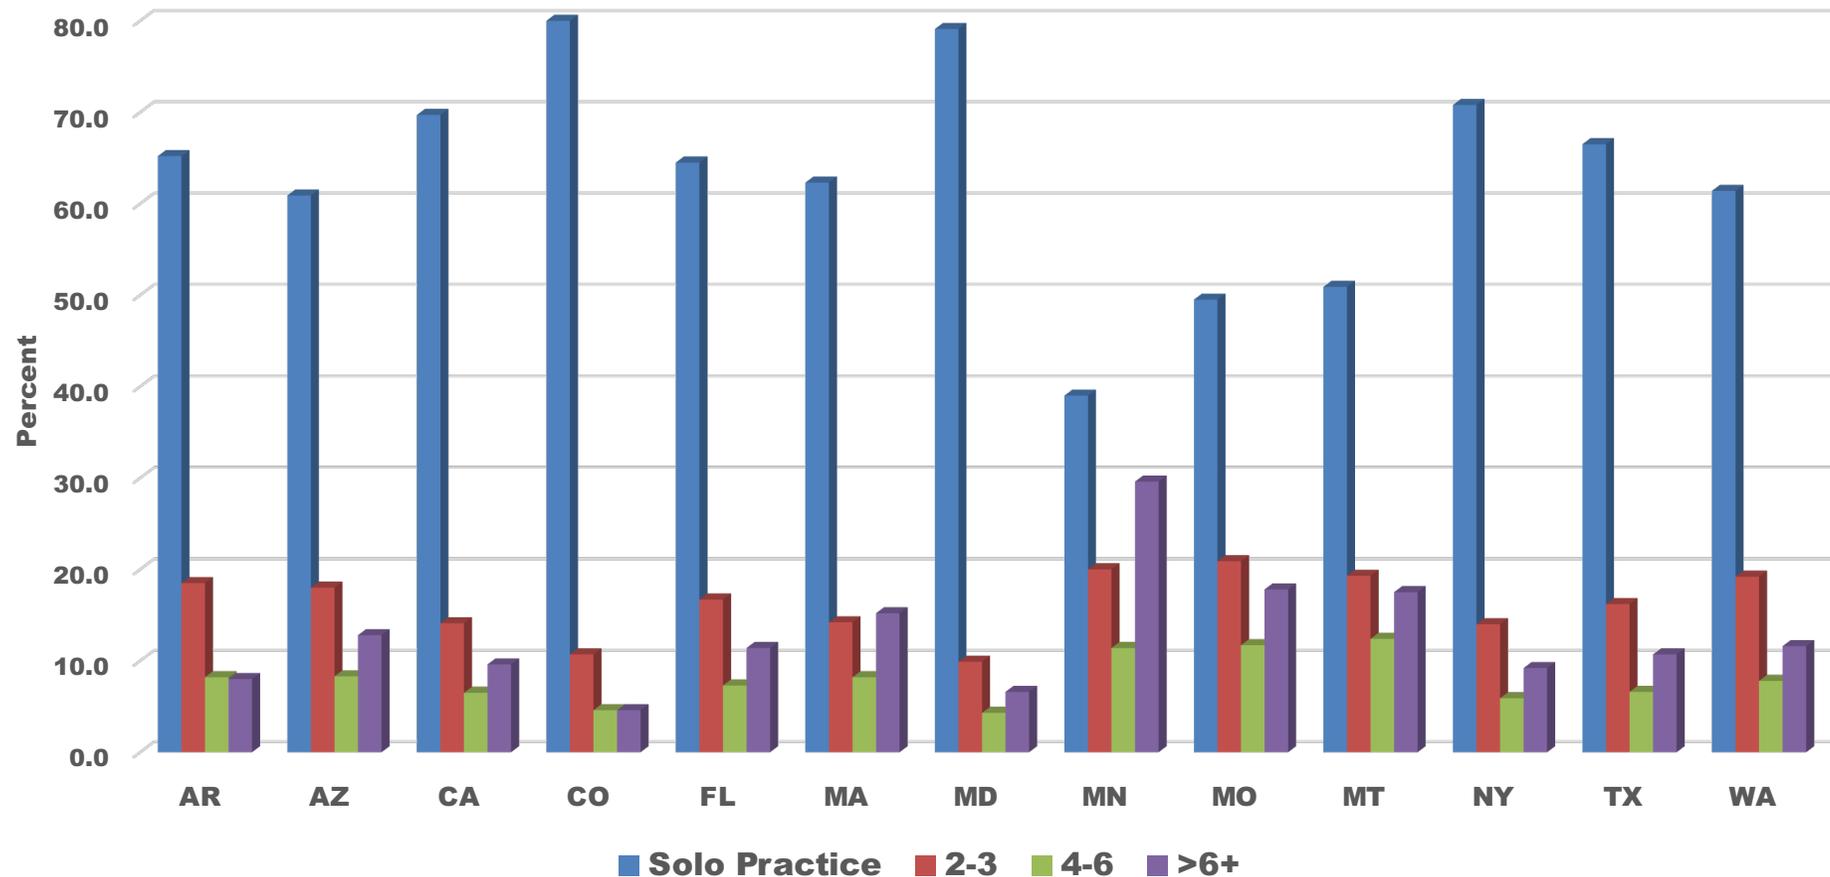

Selected Statistics of Physician Files

Number of years since medical degree obtained

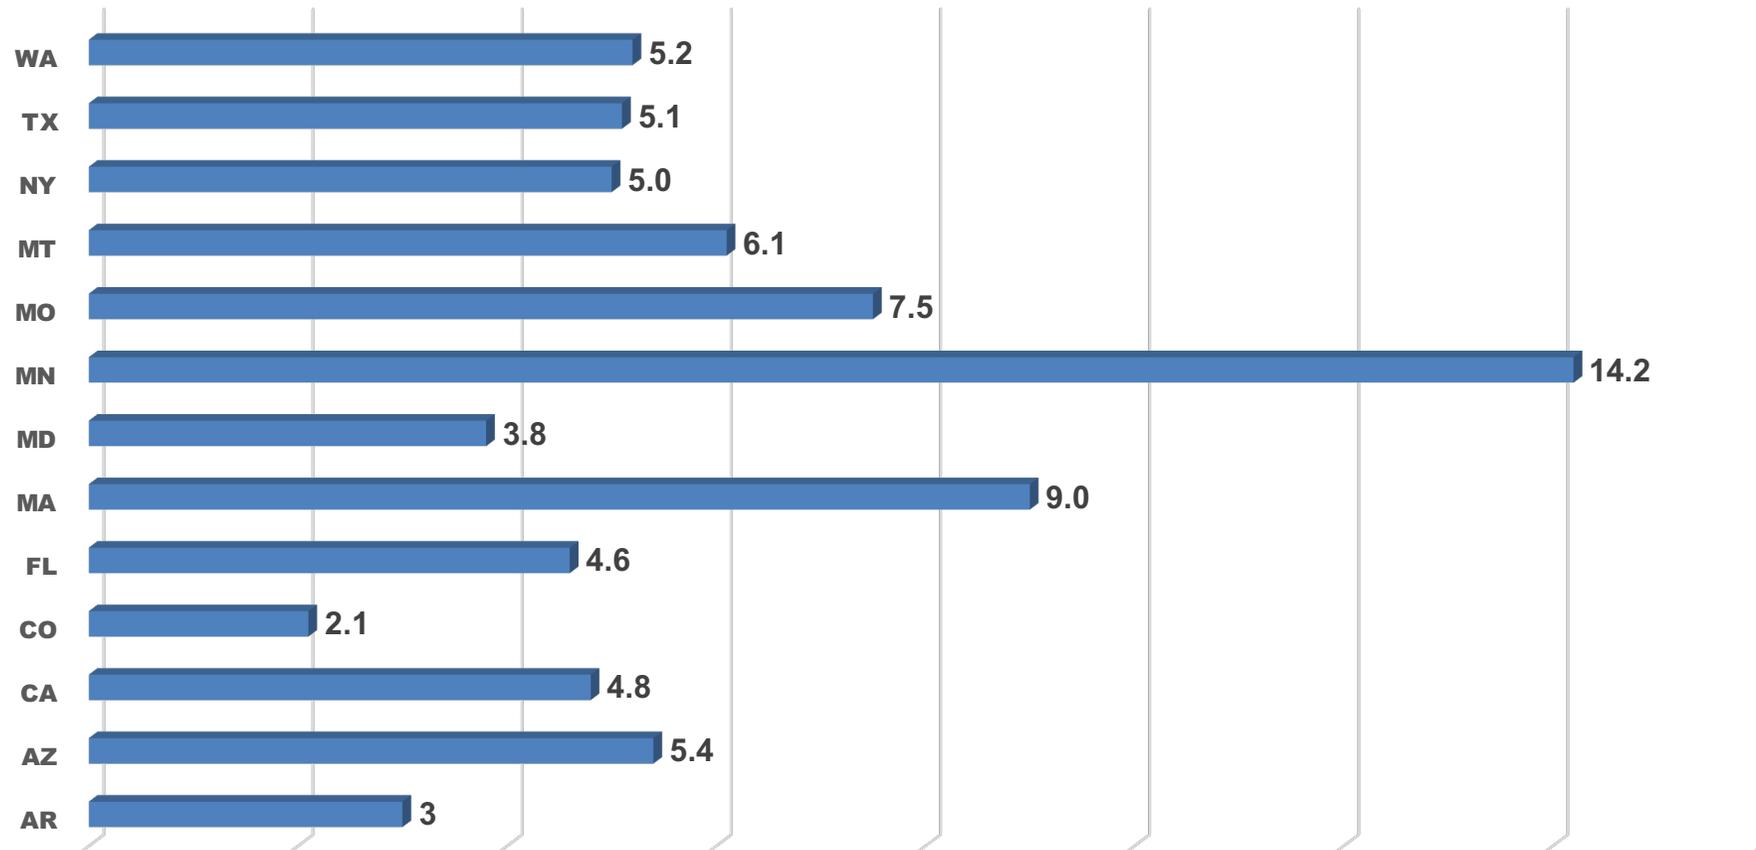

Selected Statistics of Physician Practice Files

Distribution by practice size

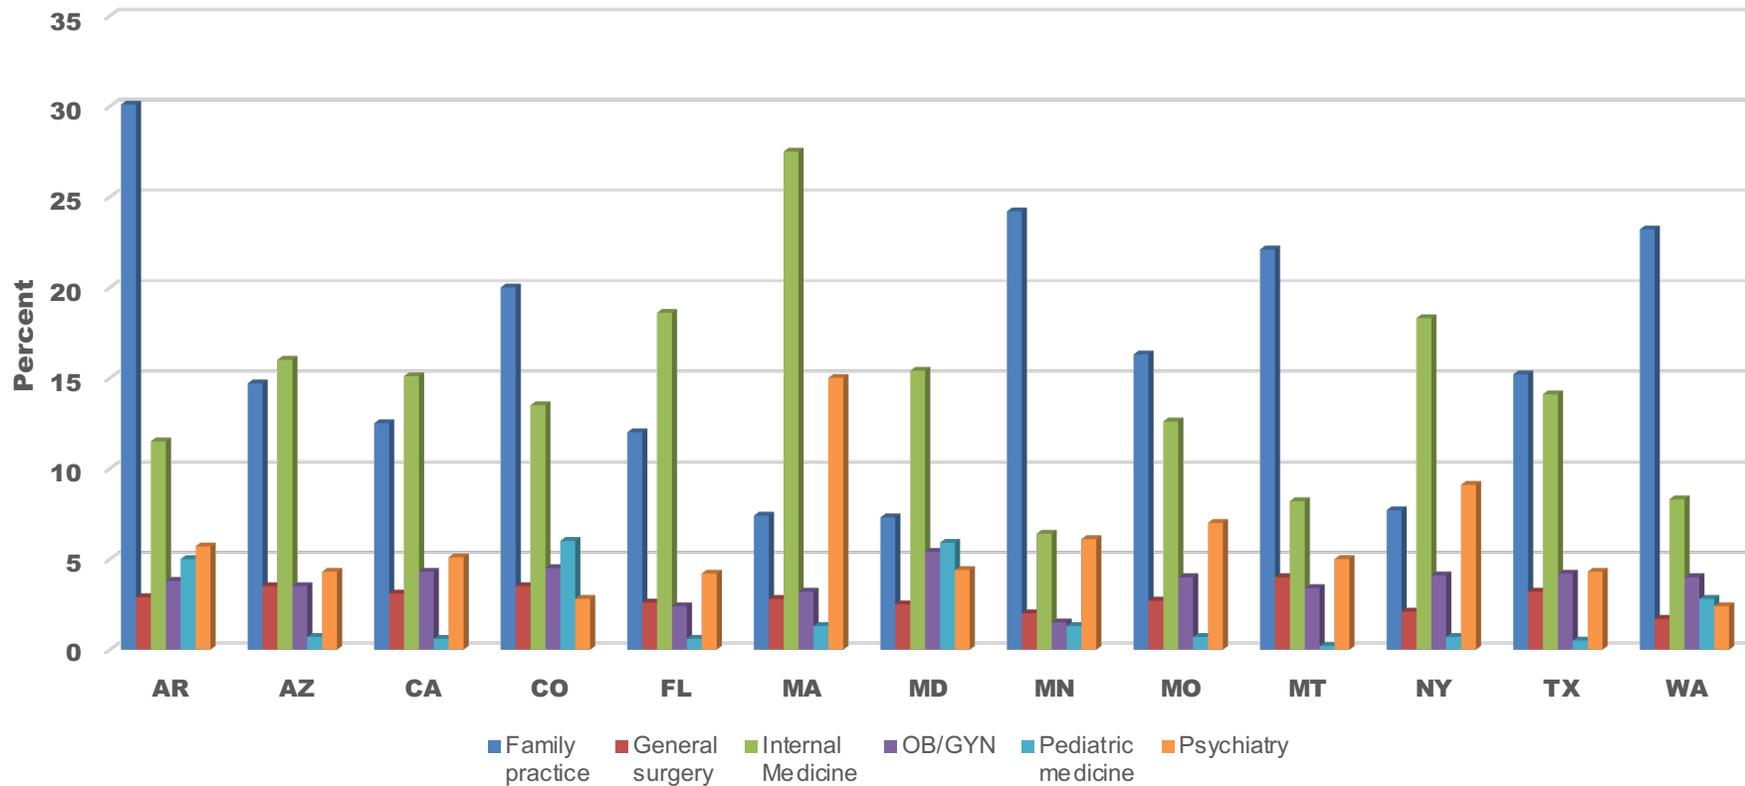

Selected Statistics of Physician Practice Files

Average number of physicians per physician practice site

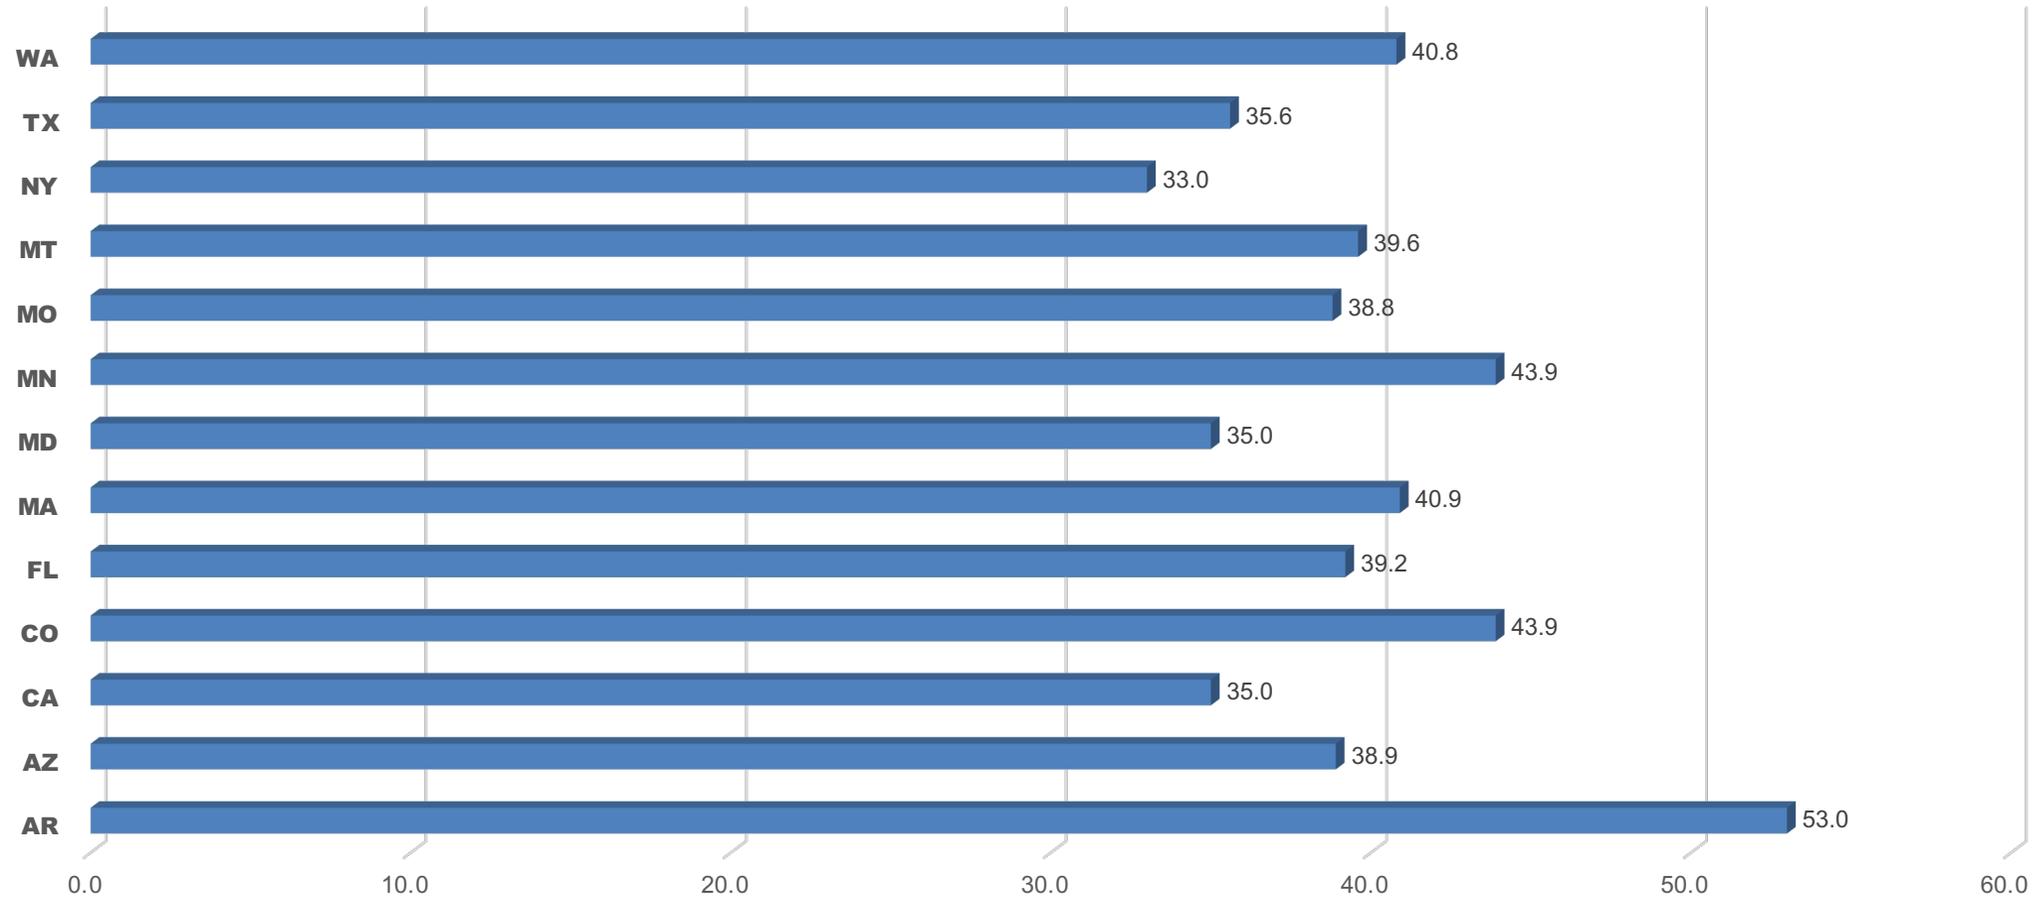

Selected Statistics of Physician Practice Files

Common medical specialties among physicians practices

Selected Statistics of Physician Practice Files

Percent of physician practices with primary care

Selected Statistics of Physician Practice Files (Geographic Level)

Massachusetts Zip Code	# of Unique Practice IDs	Average # of physicians associated with a practice	Average # of providers submitting Medicare FFS claims	% of practices with single specialty	% of practices with OB/GYN specialty	% of practices with psychiatrist specialty
010	208	5	9	76	4	22
011	124	12	21	79	6	12
012	100	6	9	85	4	20
013	24	5	9	67		4
014	104	4	6	88	1	11
015	118	6	9	85	7	10
016	134	16	25	79	7	20
017	319	8	12	85	6	18
018	450	8	13	81	7	10
019	264	6	10	81	6	10
020	232	4	7	87	2	16
021	757	16	21	80	5	16
022	58	48	62	59	10	17
023	198	7	11	82	7	17
024	495	4	6	89	7	36
025	107	5	6	87	9	14
026	145	4	8	83	5	8
027	247	7	12	80	7	12

How to Obtain 3P-RD?

- Geographic Public Use File (PUF)
 - ▶ Aggregated to the zip code level
- Physician and Physician Practice PUF
 - ▶ Directory of physicians and practices
 - ▶ No variables from APCD data
- Restricted Use File (RUF)
 - ▶ Limited variables from APCD data
 - ▶ Requires Data Use Agreement

Data Innovations

Data Innovations provides a one-stop shop for AHRQ databases that can enhance research by filling data gaps.

The delivery of healthcare services in the United States is continuously evolving and undergoing significant changes. The consolidation of healthcare providers, growing role of healthcare systems, and implementation of alternative healthcare delivery models have changed the dynamics of healthcare service delivery, access, and payments. While existing data resources may be used to address many issues, additional data

AHRQ Quality Indicator Tools for Data Analytics

MONAHRQ

State Snapshots

To address these issues, AHRQ is engaged in several data development activities that have become known as "AHRQ Data Innovations." These activities include identifying data needs and data gaps, creating new research databases, and disseminating the data to support research and analysis to inform public and private policy.

The AHRQ Data Innovations initiative has resulted in the creation of databases for public dissemination. Some databases can be accessed directly through the AHRQ website and other databases require an application and signed data use agreement to ensure that privacy and confidentiality are protected.

Databases

- [Synthetic Healthcare Data for Research \(SyH-DR\)](#) (application required).
- [Social Determinants of Health \(SDOH\)](#).
- [Physician and Physician Research Database \(3P-RD\)](#).

Physician and Physician Practice Research Database (3P-RD)

The Physician and Physician Practice Research Database captures information on physician and physician practice characteristics. AHRQ created the database to help address current data gaps in physician information within health services at the state and market levels. Data files are available for download.

Wednesday, February 8, 2023 11:28 AM 2/8/2023

Website: ahrq.gov/data/innovations/3p-rd.html

The screenshot shows a web browser window with the URL ahrq.gov/data/innovations/3p-rd.html. The page title is "Physician and Physician Practice Research Database Data Files". The main content area lists several files for download, including methodology reports, dictionaries, and public use files. A sidebar on the left contains navigation links such as "MONAHRQ", "State Snapshots", "United States Health Information Knowledgebase", and "Data Sources Available from AHRQ". The browser's address bar and bookmark bar are visible at the top, and the Windows taskbar is at the bottom.

Physician and Physician Practice Research Database Data Files

The following files include helpful documentation, data dictionaries, and codebooks for the 3P-RD data:

- [AHRQ Physician and Physician Practice Research Database Methodology Report](#), February 2023 (PDF, 6 MB).
- AHRQ Physician and Physician Practice Research Database Data Dictionary.
- AHRQ Physician and Physician Practice Research Database Physician Directory Public Use File Codebook.
- AHRQ Physician and Physician Practice Research Database Physician Practice Directory Public Use File Codebook.
- [AHRQ Physician and Physician Practice Research Database Data Dictionary - Geographic Level](#) (XLSX, 26 KB).
- [AHRQ Physician and Physician Practice Research Database Geographic Physician Public Use File Codebook](#) (PDF, 758 KB).
- [AHRQ Physician and Physician Practice Research Database Geographic Physician Practice Public Use File Codebook](#) (PDF, 5 MB).

The 3P-RD Public Use Files for each state include the following four public use data files: [Back to Top](#)

- Physician Directory
