FCN Center for Nursing

Florida Center for Nursing's 2015 Statewide Nurse Employer Survey: Skilled Nursing Facilities

The Florida Center for Nursing is working to address nurse workforce needs in our state and we need your help in order to effectively plan for the future. We are asking administrators in each of our state's skilled nursing facilities to complete this brief survey describing your current and future need for nursing personnel. Your responses are completely confidential. We will combine responses from all facilities and report aggregate findings (statewide and regional results) only.

Thank you for your participation!

1. This section will help us understand your facility's current and future need for nursing personnel. Please report on the **number of employees**. Please do **not** include per diem staff, contract/agency nurses, or other temporary personnel in these counts. Enter "0" if you have no employees of a given type. (A rough estimate would be helpful if exact numbers are not known. This will help us project employment growth in your industry.) **New Positions** are positions that do not currently exist but are expected to be created over the next year (perhaps due to expansion or increased personnel need).
